...SPECIFICATION monitoring agent 35002 and a reporting agent 35004,
communicatively coupled as depicted.

As used herein, monitoring agent 35002 receives network traffic
and analyzes the traffic for distribution of content objects which are
traceable back to a particular edit module (e.g., 120) and/or document
delivery server (e.g., 100). According to one example implementation,
monitoring agent 35002 analyzes the received network traffic for
content objects wrapped in trace wrappers (to be described more fully
below). The trace...context of a royalty payment to a content provider
50, edit module 120 may alternatively debit accounts of advertising
providers 80, or subscribing users on a micro-transaction, periodic or
other lump...

Detailed Description

Detailed Description

... information content thereof, based on the advertiser bids. The service
provider tracks consumer responses and **charges** or **debts** advertiser
accounts associated with the responses.

Biddable ads may be fully defined by the service provider and...or
forwarded to a phone number provided by the associated advertiser and the
associated advertiser **account** is **debited** by the bid amount.

Similarly, each biddable ad can include an Internet web page address,
provided by the service provider, and **traffic** to the specified **web**
page address can be **tracked** by the service provider as responses to
the associated biddable ad. Such consumer tracking methods...consumer
responses and routes the consumer responses to the associated
participating advertiser. The service provider **charges** or **debts** the
account of the associated advertiser based on the advertiser's bid
amount for each response received...additional

9

advertiser content. In all cases, the service provider 100 tracks
consumer responses and **debts** advertiser **accounts** associated with the
consumer responses.

Figure 3 is a pictorial representation of a block of...which is
maintained in database 155. The service provider 100 records the call

event and debits the highest bidders account for the bid amount for each call received and redirected. If a different participating advertiser...can be accessed by telecom switch 160. The response is recorded in the associated advertiser account by debiting the account for the advertiser's bid amount. This consumer response tracking method is ...632. The bid amounts 622 for non-rotating ads represent the amount that will be charged to the high bidders account each time a consumer ...the ad. The bid amounts 622 for rotating ads represent the amount that will be charged to the account of the current advertiser in rotation when a consumer responds to the ad. After changes...no longer valid and are in use for another category.

5 The server 140 then debits the advertiser account contained in the advertisers table 502 and channel funds table 512 located in database 155 ...are no longer valid and are in use for another category. The server 140 then debits the advertiser account contained in the advertisers table 502 and channel funds table 512 located in database 155... Interactive sessions may also include a purchase of products or services.

The server 140 then debits the advertiser account contained in the advertisers table 502 and channel funds table 512 located in database 155 ...

English Abstract

...116), pays (credits) second party merchants for respective goods
purchased by first party customers and debits the accounts of
respective first party customers.

Detailed Description

... or disapproval of the purchase based on financial information relating
to the first party, and payment (e.g., crediting an account) may be
provided to the ...the transacting identities and accounts. The bank or
credit card company credits the merchant and debits the true account
of the transacting first party. In this embodiment, the first party
provides a delivery address...

...Netting and settling among the first, second, proxy and other parties involves

21

crediting and **debiting** various **accounts** for the purchase price of the good and all or parts of the service charge...computers and identifies registered user proxy software, indexes or links to a user's bank **account** (or **debit account**, or electronic check **account**, or credit card account) or some other account used for transacting business or purchasing items...

...purchase of the goods from retailers.

In addition, a user must have a credit card **account**, or other **account** information (**debit**, electronic check, etc.), which is authorized to be charged for goods ordered by a user...information used by the proxy system in the transaction may be transmitted instead, e.g., **debit account** information, electronic check **account** information, or some other information that provides for a billing, or charge and payment transaction...

Claim

... 6, pays (credits) second party merchants for respective goods purchased by first party customers and **debits** the **accounts** of respective first party customers.

52

Referring to Fig. 3, the proxy system 112 may...third and fourth parties settle, where, generally, the fourth party pays the second party, and **debits** the proxy party's **account** with the fourth party, and the third party pays the proxy party by crediting the proxy party's **account** with the fourth party and **debits** the first party's **account** with the third party, as described in more detail below. Fig. 3D shows the embodiment...electronically debiting the first party.

29 The method of claim 28 wherein the step of **debiting** includes **debiting** a credit card **account** of the first party.

30 The method of claim 28 or 29 comprising the step...party includes the fourth party electronically crediting an account of the second party and electronically **debiting** an **account** of the proxy party, and the third party electronically crediting an account of the proxy party and electronically **debiting** an **account** of the first party.

35 The method of claim 34 wherein the step of **debiting** the **account** of the first party includes **debiting** a credit card **account** of the first party.

80

. The method of claim 34 or 35 comprising the step...method of claim 42 wherein the step of providing payment includes the third party electronically **debiting** a credit card **account** of the first party.

44 The method of claim 42 or 43 comprising the step...electronically debiting the first party.

71 The method of claim 70 wherein the step of **debiting** the **account** of the first party includes **debiting** a credit card **account** of the first party.

72 The method of claim 70 or 71 comprising the step...

...party includes the fourth party electronically crediting an account of the second party and electronically **debiting** an **account** of the proxy party, and the third party electronically crediting an account of the

proxy party and electronically debiting an account of the first party.

77 The method of claim 76 wherein the step of debiting the account of the first party includes debiting a credit card account of the first party.

78 The method of claim 76 or 77 comprising the step...method of claim 84 wherein the step of providing payment includes the third party electronically debiting a credit card account of the first party.

86. The method of claim 84 or 85 comprising the step...99 The method of claim 98 wherein the step of debiting the first party comprises debiting a credit card account of the first party.

100. The method of claim 98 or 99 wherein the step of debiting the proxy party comprises debiting a credit card account of the proxy party.

101. The method of claim 100 including the step of providing for payment of the fee to the proxy party.

102. The method of claim 101 wherein the step of providing for payment of a fee to the proxy...debiting of the first party. 156. The system of claim 155 wherein the third computer debits a credit card account of the first party.

157. The system of claim 155 comprising the third computer or...debiting of the first party. 190. The system of claim 189 wherein the third computer debits a credit card account of the first party.
